PROJECT NAME

Mystery Shopping
for a Mobile Phone
Brand in Indian
Metros

CLIENT

XYZ Mobile
Phone Brand

SECTOR

ELECTRONICS

GEOGRAPHIES
COVERED

Delhi, Mumbai,
Bangalore, Kolkata

MRELDM120124

RESEARCH OBJECTIVE

To assess the customer experience, service quality, and brand representation of XYZ Mobile Phone Brand in major Indian metros (Delhi, Mumbai, Bangalore, and Kolkata) through a mystery shopping program

SCOPE

The study covered 100 retail stores across the four metros, with 25 stores in each city. The aim was to evaluate the brand's retail performance in high-traffic areas

SAMPLE SIZE

Number of Stores: 100

METHODOLOGY ADOPTED

Mystery shoppers visited the designated stores, posing as regular customers, and performed specific tasks to evaluate various aspects of the shopping experience. They gathered data on customer service, product knowledge, store ambience, and compliance with brand standards

MYSTERY SHOPPERS TASKS

- **Store Appearance and Ambiance:** Evaluate the cleanliness and organisation of the store. Assess the presentation of mobile devices and accessories. Record the overall aesthetics and appeal of the store
- **Customer Interaction:** Engage with store staff to inquire about the latest mobile phone models. Ask questions about key features, specifications, and pricing. Record the staff's ability to offer recommendations based on customer needs
- **Sales Process:** Inquire about available promotions, discounts, and warranty options. Evaluate the sales representative's ability to explain the buying process. Check if the shopper is offered accessories, screen protectors, or other upsells
- **Product Knowledge:** Assess the staff's knowledge of the XYZ Mobile Phone Brand's product lineup. Check if the staff can compare XYZ's products with competitors. Evaluate the depth of knowledge regarding device features and benefits
- **Store Compliance:** Check if the store adheres to XYZ Mobile Phone Brand's display and promotional guidelines. Evaluate the visibility of XYZ's branding materials and in-store advertising. Assess the presence of demo units and interactive displays

CHALLENGES

- **Maintaining Anonymity:** Mystery shoppers must not reveal their true identity to ensure a genuine shopping experience, which can be challenging in some stores where staff may recognize them
- **Data Accuracy:** Shoppers must accurately record their observations, so consistent training and reporting guidelines are essential to maintain data quality
- **Timing & Coordination:** Coordinating visits to multiple stores across four metros requires precise scheduling to ensure evenly distributed data collection

INSIGHTS

Data Points Collected; **Mystery shoppers will collect the following data points for each store visit:**

1. Store Name and Location
2. Date and Time of Visit
3. Mystery Shopper's Code (to maintain anonymity)
4. Store Appearance and Ambiance Score (on a scale of 1 to 10)
5. Customer Interaction Score (on a scale of 1 to 10)
6. Sales Process Evaluation (Detailed comments)
7. Product Knowledge Assessment (Detailed comments)
8. Store Compliance Score (on a scale of 1 to 10)
9. Additional Comments (any noteworthy observations)

ANALYSIS

The collected data was analyzed to identify trends, strengths, weaknesses, and areas of improvement. The mystery shopping case study will provide insights to help XYZ Mobile Phone Brand enhance its retail operations, improve customer satisfaction, and maintain brand consistency across Indian metros

RESULTS

The results of this mystery shopping case study will serve as valuable feedback for the XYZ Mobile Phone Brand, helping them make informed decisions to optimize their retail strategy and improve customer experiences in the highly competitive Indian mobile phone market
