METHODOLOGY
& TARGET
RESPONDENT

The Study was conducted thorough Computer Assisted Personal Interviewing (CAPI) and Face-to-Face (F2F) interviews amongst:

- Face to face exit interviews: Non-Loyalty Card Customers
- Face to face in catchment area: Catchment
- CATI: Loyalty Card customers
- CATI: Lost customers

STUDY BACKGROUND

Customer Satisfaction, Lost Customer & Catchment Study.

BUSINESS OBJECTIVE

Keeping customer centricity as one of the core business objectives, a leading book retail client wanted to measure annual CSAT and alongside do some ad hoc researches to understand customer perceptions/issues in particular stores.

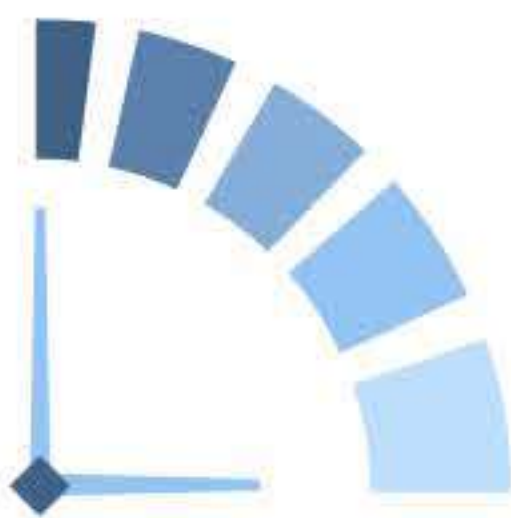

RESEARCH OBJECTIVE

- Customer satisfaction module:
- To understand perceptions, expectations and satisfactions amongst exit and loyalty programs members
- Lost customer analysis:
- To understand reasons for not visiting stores among Loyalty Card Holders for more than 3 months
 - To understand reasons for not visiting the client's store amongst aware set of customers who were visiting competition stores in catchment areas of 2 stores in Hyderabad

SAMPLE SIZE

The sample sizes were: Loyalty card members = 575
Exit = 1877 Lost customer = 358
Catchment = 121

It took 2.5 months to complete the annual study.

TIMELINE

EXECUTIVE SUMMARY

The findings of the study are confidential and cannot be disclosed owing to the non-disclosure agreement. It was a very long questionnaire; it was very tough to complete the study especially amongst Exit Interviews and Lost Customers over call.
